Novel Units® Literature Guides

Novel Units® Teacher Guides and Student Packets have everything a teacher needs to teach a novel.

"I love Novel Units® and your novel selections. It is such a pleasure to have everything all structured. The Student Packet helps students locate information in the novels. The Teacher Guide presents different facts.... You are definitely #1 on my list to order from every year."

-Sandie K., TX

What is the difference between a Teacher Guide and a Student Packet?

Teacher Guides feature everything a teacher needs to teach a novel, including summaries of the story, author backgrounds, prereading activities, vocabulary builders, discussion questions, graphic organizers, writing ideas, literary analyses, post-reading activities, cross-curriculum extension activities, and assessments. Inspiring lesson plans provide a comprehensive unit with an average of 32 pages.

Student Packets feature multiple-level reproducibles for direct student use, including activity sheets with prereading activities, study questions, vocabulary activities, literary analyses, writing projects, and critical- and creative-thinking challenges. The packets also include quizzes and final exams with answer keys. A Student Packet offers an average of 44 pages of reproducible sheets at several ability levels, so teachers can tailor activities and test pages for individual students.

Novel Units®— It's like buying time!™

How are Novel Units® guides different from other literature guides on the market?

- Novel Units has hundreds of titles to choose from, with numerous titles added yearly, so teachers can easily find the titles they want.
- Novel Units guides are the only up-to-date literature guides that use the latest reading strategies, so students develop higher-level thinking skills with less emphasis on memorization.
- Novel Units products include graphic organizers, so students focus on the content of novels and devote less attention to "related activities."
- Novel Units offers the most literature guides for Newbery and Caldecott award winners.
- Novel Units prints the current hot titles, as well as classic, contemporary, award-winning, and Spanish-language titles.

We offer the largest selection of literature guides available today for grades 1 - 12.

Novel Units® Literature Guides, Spanish Titles

Novel Units® Teacher Guides and Student Packets have everything a teacher needs to teach a novel.

"I love Novel Units® and your novel selections. It is such a pleasure to have everything all structured. The Student Packet helps students locate information in the novels. The Teacher Guide presents different facts.... You are definitely #1 on my list to order from every year."

-Sandie K., TX

These *Teacher Guides* are comprehensive resources—translated by experienced bilingual and ESL teachers. Professionals edited and revised these guides to make them effective Spanish tools.

Spanish-language teachers will enjoy reading their favorite childhood books now in Spanish. Each guide provides strategies and ideas for initiating class discussion and fostering student comprehension.

What is the difference between a Teacher Guide and a Student Packet?

Teacher Guides feature everything a teacher needs to teach a novel, including summaries of the story, author backgrounds, prereading activities, vocabulary builders, discussion questions, graphic organizers, writing ideas, literary analyses, post-reading activities, cross-curriculum extension activities, and assessments. Inspiring lesson plans provide a comprehensive unit with an average of 32 pages.

Student Packets feature multiple-level reproducibles for direct student use, including activity sheets with prereading activities, study questions, vocabulary activities, literary analyses, writing projects, and critical- and creative-thinking challenges. The packets also include quizzes and final exams with answer keys. A Student Packet offers an average of 44 pages of reproducible sheets at several ability levels, so teachers can tailor activities and test pages for individual students.

Novel Units®— It's like buying time!™

How are Novel Units® guides different from other literature guides on the market?

- Novel Units has hundreds of titles to choose from, with numerous titles added yearly, so teachers can easily find the titles they want.
- Novel Units guides are the only up-to-date literature guides that use the latest reading strategies, so students develop higher-level thinking skills with less emphasis on memorization.
- Novel Units products include graphic organizers, so students focus on the content of novels and devote less attention to "related activities."
- Novel Units offers the most literature guides for Newbery and Caldecott award winners.
- Novel Units prints the current hot titles, as well as classic, contemporary, award-winning, and Spanish-language titles.
